

Mira Vale

Graphics Systems Engineer

Systems-focused engineer building compact rendering infrastructure, asset pipelines, and developer tooling.

loc: Northbridge, Testland

env: Linux / Wayland

mail: mira.vale@example.test

git: github.com/fake-mira-vale

/// SKILLS

Graphics:

Vulkan

OpenGL

GLSL

SPIR-V

Languages:

C++

C

Lua

Python

Systems:

Linux

CMake

Git

Profiling

Tools:

RenderDoc

Ninja

Neovim

/// PROJECTS

Starling Render Lab (Lead Renderer)

Fictional renderer used to test bindless materials, transient resources, and GPU-driven scene submission.

C++

Vulkan

SPIR-V

CMake

PixelForge Asset Tool (Developer)

Small offline tool for validating meshes, materials, and texture metadata before import.

C++

Lua

CLI

/// EDUCATION

BSc Computer Graphics

Northbridge Institute of Computing

Status: Completed
